SUMMARY

Aspiring Software Developer with a Master's degree in Computer Science. Skilled in Java, Python, and full-stack technologies including React.js and Spring Boot. Hands-on experience in developing academic and internship-based projects, including real-time and data-driven applications. Eager to contribute technical expertise and problem-solving skills to organizational growth.

EDUCATION

M.Sc. Computer Science
St. Xavier's College (Autonomous), Palayamkottai
Aug 2024 – Jun 2026

B.Sc. Computer Science
Sri Sarada College for Women, Tirunelveli
Jun 2021 – May 2024
CGPA: 8.32 / 10

HSC
Sri Jayendra Saraswathi Swamigal Golden Jubilee Matric Hr. Sec. School
Percentage: 88%

SKILLS

- Programming: C, C++, Java, Python
- Web: HTML, CSS, JavaScript, React.js, Node.js, Express.js
- Database: MySQL, PostgreSQL, MongoDB, RDBMS
- Tools: GitHub, Postman, pgAdmin
- Core Areas: Full Stack Development, Machine Learning, Database Systems
- SOFT SKILLS - Leadership, Communication, Team Collaboration, Problem Solving, Time Management

CERTIFICATIONS

- Full Stack Web Development – Gloud Academy
- NPTEL – Python for Data Science
- ICCST 2025 – Paper Presentation (RPA)
- National Seminar – Cyber Security & Ethical Challenges
- Typewriting – Junior & Senior Grade

EXPERIENCE

Full Stack Development Intern
Gove, Tirunelveli (May 2025 – Jun 2025)

- Developed Student Vault Management System.
- Implemented backend logic and database integration.

PROJECT

Dynamic Ticket Fare Optimizer Using Real-Time Simulator (PG Major Project – 2025–Present)

- Developed a dynamic pricing system based on real-time demand and supply. Designed a simulator to analyze passenger flow and fare variation.
- Built frontend using HTML, CSS, and JavaScript. Implemented backend algorithms using Python.
- Integrated MySQL database for ticket and transaction management.

Product Sales Report Analysis
Undergraduate Project (Jan 2023 – May 2023)

- Analyzed product sales data to optimize marketing strategies.
- Improved inventory management and sales forecasting. Generated regular performance reports for stakeholders.

Flight Delay Prediction (Machine Learning Project)
Jun 2023 – Dec 2023

- Developed an LSTM-based Machine Learning model.
- Achieved 85% accuracy using historical flight data.
- Implemented predictive analytics for forecasting delays.

Asset Management System
Full Stack Development Course Project (May 2025 – Aug 2025)

- Designed and developed a full-stack web application.
- Managed company asset tracking and reporting.

LEADERSHIP & ACTIVITIES

President – Department Women's Forum

- Organized technical and empowerment programs.
- Coordinated events and led student teams.

NSS Volunteer (2021–2023)

- Participated in special camps and community development activities.
